

Brent Ouellette

VP Solution Engineering & CCS

Brent has more than 25 years of experience consulting to C-Suite leadership on Information Technology strategy and implementation. As a graduate of Bryant College, he began his career implementing emerging MRP/ERP solutions in manufacturing, and quickly grew into consulting across a range of verticals including professional services, healthcare, education, and not-for-profit.

As one of Envision's founding members, Brent has had tremendous influence on the growth strategy within the company and has consistently held leadership roles. He has been a driving force for increasing operational efficiency, quality of deliverables, and elevating business value. Today, Brent leads the solution engineering team, which is responsible for all technical project design and scoping. He also heads Envision's Concierge Services practice, which provides custom solutions for equipment imaging and deployment.

Outside of work Brent is a husband, father, outdoorsman, and environmental advocate.
